

LONG TERM CARE & MEDICAID PLANNING

LONG TERM CARE PLANNING IS PERHAPS THE BEST GIFT YOU CAN GIVE THE GENERATIONS OF YOUR FAMILY.

Long term care planning is about more than just insurance and it addresses more than just financial issues. Decisions must be made about the near and long-term evolution of a loved one's housing, daily living and social activities, emotional support, medical care, and other needs.

AT LEAST 70% OF PEOPLE OVER 65 WILL NEED LONG-TERM CARE SERVICES AND SUPPORT AT SOME POINT IN THEIR LIVES.

As you face life's most critical decisions, our knowledgeable, experienced, and compassionate attorneys can help you:

- ⊕ Legally protect your assets within the Medicaid laws, while maintaining quality of care for your loved one.
- ⊕ Assess your Medicaid eligibility and address any recent gifts or transfers that might be problematic to gain approval, if not properly addressed.
- ⊕ Prepare and file your Medicaid application even if your loved one is in a nursing home.
- ⊕ Assist in understanding care options that are available whether at home or in a facility.

The Medicaid application process can be stressful enough when you're not worried about the health of a loved one; it can be overwhelming when you are. Choosing a law firm with long term care planning as a cornerstone of its services is important because this area of law is constantly changing and a delay in qualifying for Medicaid or errors in the application can translate into thousands of dollars lost and delays or denial of eligibility.
